

HONDA VT 750 S

SISSYBAR / LUGGAGE RACKS MOUNTING INSTRUCTIONS

(1) Sideplates

The sissybar is mounted on the chromed side supports that flank the rear fender.

Remove the original screws. The sissybar side plates must be placed, at its front part with the screws **M10/125x50** included in the kit. Keep the original metal caps and its nylon washer.

At the rear part, put on the original cap, the **16x15x10.5** cap, and on this, the side plate of the kit. The assembly must be fixed with the **M10/125x50** screws

(2) Sissybar uprights – luggage rack arch

Fix the sissybar upright (high or low), or in case of a luggage rack or luggage rack **TC**, the luggage rack arch to the sideplates **SPAAN** with the four screws **M6x20**. Put **M6** nuts from the inside.

(3) Rack

For installation in luggage racks kits or in any sissybars of our brand **SPAAN**. We must place it the inside of the sissybar uprights or the small arch and fix the assembly with **4** screws **M6x20** and nuts **M6** included in the kit. **In all LUGGAGE RACKS is required to mount the small arch**, to give more rigidity to the assembly.

(4) Pad

Join the set with four screws **M5x10** that accompany the kit. (In the back of the pad is marked with four holes in the fabric the position of the threads).
