

SPAAN

KAWASAKI W800

LUGGAGE-RACK MOUNTING INSTRUCTIONS

Remove the seat to remove the two side handles.

Remove the plastic tray by removing the two screws that secure it **(Image A)**.

Remove the shock absorber to pull the handle shaft that hold it. Pull the handle out. Place the shock absorber without tighten the fastening nut.

Enter the front part of the luggage rack between the shock absorber and the frame. **(Image B)**

Attach the rear support of the luggage rack in the anchoring of the handle, placing the **20x6x8.5** bushing between the platen of the luggage rack and the bike. Use the **M8x20** screws and the nuts included in the **SPAAN** kit, to fix it. **(Image C)**
