

SISSYBAR / LUGGAGE RACKS MOUNTING INSTRUCTIONS

(1) Sideplates

The sissybar is placed on the side supports of the motorcycle that secure the rear fender.

Remove the original screws. (Do not remove them all at once).

Put the bushings included in the kit on the sides of the motorbike.

Place the anchor plates of the sissybar and secure them using the **3/8"x2"** screws.

Check that the screws do not protrude by the inside to avoid damaging the tire.

(2) Sissybar uprights – luggage rack arch

Fix the sissybar upright (high or low), or in case of a luggage rack or luggage rack **TC**, the luggage rack arch to the sideplates **SPAAN** with the four screws **M6x20**. Put **M6** nuts from the inside.

(3) Rack

For installation in luggage racks kits or in any sissybars of our brand **SPAAN**. We must place it the inside of the sissybar uprights or the small arch and fix the assembly with **4** screws **M6x20** and nuts **M6** included in the kit. **In all LUGGAGE RACKS is required to mount the small arch**, to give more rigidity to the assembly.

(4) Pad

Join the set with four screws **M5x10** that accompany the kit. (In the back of the pad is marked with four holes in the fabric the position of the threads).
