### Sissybar / Luggage Racks mounting instructions

#### (1) Sideplates

The side plates of the sissybar are placed on the supports that flank the rear fender.

Side plates assembly. Remove the original screws. Place the washers included in the kit on the support and on them, the side plates of the SPAAN sissybar. Fix them with the M8x25 screws included in the kit.

#### (2) Sissybar uprights – luggage rack arch

Fix the sissybar upright (high or low), or in case of a luggage rack or luggage rack TC, the luggage rack arch to the sideplates SPAAN with the four screws M6x20. Put M6 nuts from the inside.

#### (3) Rack

For installation in luggage racks kits or in any sissybars of our brand SPAAN. We must place it the inside of the sissybar uprights or the small arch and fix the assembly with 4 screws M6x20 and nuts M6 included in the kit. In all LUGGAGE RACKS is required to mount the small arch, to give more rigidity to the assembly.

#### (4) Pad

Join the set with four screws M5x10 that accompany the kit. (In the back of the pad is marked with four holes in the fabric the position of the threads).
