

SISSYBAR / LUGGAGE RACKS MOUNTING INSTRUCTIONS

(1) Sideplates

The **SPAAN** backrest side plates fit over the rear fender trims. To mount them, remove the original screws. Place a rubber washer at the front between the side and the chassis and fix them with the **M10x50** screw and the **M10** washer. On the rear part, place a rubber washer and then the **20x6x10** bushing and fix them with the **M10x50** screw, **M10** washer and self-locking nut included in the kit.

(2) Sissybar uprights – luggage rack arch

Fix the sissybar upright (high or low), or in case of a luggage rack or luggage rack **TC**, the luggage rack arch to the sideplates **SPAAN** with the four screws **M6x20**. Put **M6** nuts from the inside.

(3) Rack

For installation in luggage racks kits or in any sissybars of our brand **SPAAN**. We must place it the inside of the sissybar uprights or the small arch and fix the assembly with **4** screws **M6x20** and nuts **M6** included in the kit. **In all LUGGAGE RACKS is required to mount the small arch**, to give more rigidity to the assembly.

(4) Pad

Join the set with four screws **M5x10** that accompany the kit. (In the back of the pad is marked with four holes in the fabric the position of the threads).
