

## INDIAN CHIEFTAIN

### SISSYBAR / LUGGAGE RACKS MOUNTING INSTRUCTIONS

#### (1) Sideplates

The side plates of the SPAAN backrest are fixed on the upper anchors of the original cases.

Remove the two screws that fix the case. Separate the suitcase from the motorcycle and position the side plate of the backrest so that its holes coincide with the position of the screws. Place the bushings from the SPAAN kit between the side plate and the case.

Fix the assembly with the kit screws and their washers.

#### Sissybar uprights – luggage rack arch

Fix the sissybar upright (high or low), or in case of a luggage rack or luggage rack **TC**, the luggage rack arch to the sideplates **SPAAN** with the four screws **M6x20**. Put **M6** nuts from the inside.

#### (2) Rack

For installation in luggage racks kits or in any sissybars of our brand **SPAAN**. We must place it the inside of the sissybar uprights or the small arch and fix the assembly with **4** screws **M6x20** and nuts **M6** included in the kit. **In all LUGGAGE RACKS is required to mount the small arch**, to give more rigidity to the assembly.

#### (3) Pad

Join the set with four screws **M5x10** that accompany the kit. (In the back of the pad is marked with four holes in the fabric the position of the threads).
