

# INDIAN SCOUT BOBBER

## INSTALLATION INSTRUCTIONS SISSYBAR / LUGGAGE RACK

### (1) Sideplates

The SPAAN sissybar sideplates are placed on the rear fender. Remove the original screws. Place the **18x20x8** bushings from the kit between the frame and the sideplate and secure it with the **M8x45** screws included in the kit.

### (2) Sissybar uprights – luggage rack arch

Fix the sissybar upright (high or low), or in case of a luggage rack or luggage rack TC, the luggage rack arch to the sideplates **SPAAN** with the four screws **M6x20**. Put M6 nuts from the inside.

### (3) Rack

For installation in luggage racks kits or in any sissybars of our brand **SPAAN**. We must place it the inside of the sissybar uprights or the small arch and fix the assembly with **4** screws **M6x20** and nuts **M6** included in the kit. **In all LUGGAGE RACKS is required to mount the small arch**, to give more rigidity to the assembly.

### (4) Pad

Join the set with four screws **M5x10** that accompany the kit. (In the back of the pad is marked with four holes in the fabric the position of the threads).
